

The FAA Safety Team presents:

FAASTeam Flight Instructor Open Forum

Stop, Look, and Listen! The flight instructor is the cornerstone of aviation safety. The flying habits and knowledge of the flight instructor, both during flight instruction and as observed by students when conducting other pilot operations, have a vital effect on safety. Students consider the flight instructor to be a paragon of flying proficiency and knowledge. The flight instructor's role is to train the "total" pilot. At this forum we'll discuss best practices for teaching Single Pilot Resource Management and Runway Safety. Attend this exclusive forum and help your students become better and safer pilots. Click on the link below and register TODAY! Note: This forum is open only to Averett University Pilot School instructors. For more information please contact PAUL ASCOLI at pascoli02@aol.com.

Directions: From Route 360, South Boston Road Eastbound, turn right onto Airport Drive, Westbound turn left onto Airport Drive. Averett University hangar on the left.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
